

REMARKS

Claims 1-14 remain pending in the present application. Claim 6 has been amended. Basis for the amendments can be found throughout the specification, claims and drawings as originally filed.

RESTRICTION REQUIREMENT

The Examiner has required restriction to one of the following inventions under 35 U.S.C. § 121:

- I. Claims 1-5, drawn to a system including an engine, a heater, and a heater pipe disposed therebetween, classified in class 165, subclass 51.
- II. Claims 6-14, drawn to a heater pipe, classified in class 285, subclass 41.

Applicants, without traverse, respectfully request the Examiner to proceed with Invention I defined by Claims 1-5. Claims 6-14 have been amended to ultimately depend from Claim 1. Thus, Applicants believe that Claims 6-14, in addition to Claims 1-5, read on the elected invention. Applicants request that the non-elected Claims be held in abeyance for further prosecution in future divisional and/or continuation applications.

CONCLUSION

It is believed that a full and complete response has been made to the outstanding Office Action, and as such, the present application is in condition for allowance. Thus, prompt and favorable consideration of this Response is respectfully requested. If the

Examiner believes that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (248) 641-1600.

Respectfully submitted,

Dated: September 7, 2006
